Выполнил Мизинов Михаил НКАбд-04-25

Цель работы

Изучить идеологию и применение средств контроля версий. Освоить умения по работе с git.

Выполнение работы

Установка git и gh.

```
mgmizinov@localhost-live:~$ dnf install gh
The requested operation requires superuser privileges. Please log in as a user with elevated rights, or use the "--assumeno" or "--downloadonly" options to run the command without modifying the system.
mgmizinov@localhost-live:~$ sudo dnf install gh

We need to generate a lot of random bytes. It is a good idea to perform
some other action (type on the keyboard, move the mouse, utilize the
disks) during the prime generation; this gives the random number
generator a better chance to gain enough entropy.
